

Dear Yogis/Yoginis (and of course everyone else 😊),

in the summer of 2021 it was finally time: our heart's desire and long cherished dream of owning a home on our favorite island Lanzarote has come true. "Found" we have the cottage in the summer of 2021 and it followed an exciting time in which we have done everything to realize our dream of "our" place by the sea. We invested a lot of time and heart and soul in our dream project, which was a real logistical challenge given the distance of around 4000 km. But in the end it worked out. Even though there will certainly be one or two additions in the next few years, we are already extremely happy with the "interim result" and simply feel incredibly comfortable.

We just love it there! But since we have yet (unfortunately 😞) still a few Years until our retirement, we can spend for the time being only here and there a few weeks on site. Because of this situation, we would also like to give family and friends the opportunity to vacation in our little dream house: people we know personally and who we think would also appreciate and treat our "sweetheart" well. 🥰

And here is all the important info:

The house is located on Lanzarote in the tranquil and absolutely not touristy place Playa Honda. It is located in a beautiful and well-kept complex directly on the sea, only 5 minutes from the airport: Club Solvalor, Calle Patron 2, Playa Honda.

The airplane noise is kept within limits! The planes land from the sea and take off over the volcano; depending on the wind, you may hear a plane taking off from time to time, but this is minimal compared to Frankfurt. In addition, Lanzarote is a small airport with way less flights a day, compared to a large airport than Frankfurt.

In general, the central location is perfect, as you can reach practically every corner of the island within a maximum of 45 minutes by car. Since the complex is located directly at the sea on a car-free promenade and our house is on the side of the complex facing away from the main entrance, there is absolutely no street noise!

The house has 2 bedrooms, 2 bathrooms, a very well equipped kitchen (induction stove, oven, microwave, dishwasher, washing machine, drying rack, refrigerator, freezer, blender, toaster, coffee maker, rice stove and everything that "the hobby chef or cook" needs. There are two terraces with deck chairs: one downstairs in front of the living room with a dreamlike cozy dining area and another one on the second floor in front of the bedroom with a wonderful sea view and a small sitting area. Directly in front of the front door is a well-maintained community pool. The pool hours are adapted to the vacation guests (10:00 - 18:30) and generally it is rather quiet there and there is no music or "Halli-Galli pool parties". Of course, children are allowed to play and splash around within the pool hours.

The sea is right in front of the resort (within earshot!) and beautiful beaches with clear water are only a few steps away on foot. So you always have the choice whether you prefer to enjoy the cool water and the sun in the pool or the sea in front of the door. This is ideal if you want to take a "lazy" day and do not want to drive to one of the many beautiful and very different beaches on the island.

Also within walking distance are many restaurants directly on the promenade, always with a view of the sea. Of course, there are also many more restaurants in town. Due to the fact that the place accommodates few tourists (there is not a single hotel in town), it is very authentic there and the price level is much lower than in the classic tourist places. Nevertheless, there are also German and English menus everywhere, so that one can get along well even without knowledge of Spanish. On the promenade is car-free zone, so it is very relaxed and especially quiet and safer for kids!

There is a shopping mall (Deiland) with some fashion stores, pharmacy, pastry shop, supermarket, food mall, cinema, café, ice cream parlor, hairdresser, etc.. In the town itself there are also many restaurants, tapas bars, supermarkets, another pharmacy, yoga studio, ice cream parlor, bike rental and much more.

Interesting for yoga lovers: the yoga studio "Yoga con Amba" has open classes at a price of 12,-€. You should register for them with Paola via WhatsApp, as they are quite full at times. Paola is very warm and speaks good English and always responds well to "foreign" guests.

Another great option is Diana King: she is a German yoga instructor and also offers yoga in the restaurant Emmax directly on the promenade 3x per week in the morning, price 15,-€ per unit, she is also very charming and helpful.

In the neighboring town of Puerto del Carmen there is a German-speaking practice (Clinicas Dr. Mager) in case you should ever need medical help. There are other branches in Costa Teguisse and Playa Blanca. You can make very uncomplicated online appointments there.

There would be so much more to say about the island and this place, but about Lanzarote in general you can find everything on the Internet and if you are interested in the house and have questions, just contact us directly!

Of course, all tenants get a detailed info file with lots of personal tips and recommendations from us (beaches, restaurants, markets, sights etc.).

We are happy if we can inspire you for our feelgoodplace and look forward to your message 🥰

Yours Steffi, Thomas & Julius 🙋🙋🙋
